BINDT
THE BRITISH INSTITUTE OF
NON-DESTRUCTIVE TESTING

APPROVED OUTSIDE AGENCY

TESTIA LTD

Airbus Main Gate, Golf Course Lane, Building 07A, Filton
Bristol, BS34 7QQ

has been assessed by BINDT and is
approved to provide the following services:

Training and Examination of NDT Personnel in support of employer based certification in accordance with EN4179.

BINDT approval is conditional upon the organisation continuing to provide the specified service to the standard witnessed during initial assessment, which will be confirmed at a biennial re-assessment.

Outside Agencies approved by BINDT are recognised by the UK NANDT Board, which determines the criteria for approval of outside agencies, and maintains an overview of the implementation of the assessment and approval procedure.

Date of initial assessment: 10th February 2015

Issue date of this approval: 16th May 2018

Expiry date of this approval: 15th May 2019

Signed for BINDT

Nicole Banks
Head of Certification

Signed for NANDTB

Jon Biddulph
Chairman of NANDTB

CERTIFICATE NUMBER: NANDTB/0025

The British Institute of Non-Destructive Testing is an accredited certification body offering personnel and quality management systems assessment and certification against criteria set out in international and European standards through the PCN Certification Scheme. Approval of Outside Agencies offering NDT personnel qualification services to clients is undertaken by BINDT at the request of an Outside Agency to engender confidence in the quality of the specified service provision.

| Main Methods as Specified in EN4179 | Techniques | Materials |
|-------------------------------------|--|---------------------|
| Penetrant Testing (PT) | F. Water Wash F. Post Emulsified Solvent Removable | Metallic |
| Magnetic Testing (MT) | Wet Horizontal Bench systems Portable Systems | Metallic |
| Ultrasonic Testing (UT) | Contact Testing A-scan display, PA Through Transmission C-scan display Immersion C-scan display Thickness Gauging | Composite, Metallic |
| Radiography (RT) | X-ray using film Digital Radiography Computerised Radiography Interpretation | Composite, Metallic |
| Eddy Current (ET) | High Frequency Low Frequency Dynamic (Rotating) | Metallic |
| Thermographic Testing (TT) | Standalone camera applications | Composite, Metallic |

| Non EN4179 Main Methods | Techniques | Materials |
|-------------------------------|---|--------------------|
| Barkhausen Noise | Dedicated equipment based technique. | Metallic |
| Acid Etch Inspection | Steel Titanium Nickel Based Alloys | Metallic |
| Anodic Flaw Detection | Anodise Process | Metallic |
| Conductivity Testing | Digital gauges | Metallic |
| Hardness Testing | Rockwell [B and C] Vickers Micro Portable | Metallic |
| Mechanical Testing | Tensile Charpy Impact Bend Tests Compression and Tension | Metallic |
| Bond Testing | Instrument based techniques Manual | Metallic/Composite |
| Visual Inspection | Remote Visual Testing | Metallic |
| Coating Thickness Measurement | Eddy Current | Metallic |
| Radiation Safety | Gamma & X-Ray | Metallic |
